Kwara State Polytechnic | 2021-2022

- Graduated with a Upper Credit of 3.34
- Community advisor, Google Developer Student Clubs (GDSC)

CERTIFICATES:

- Completion of HTML course on Sololearn
(<https://www.sololearn.com/Certificate/1014-17844813/jpg/>)

- Completion of CSS course on Sololearn
(<https://www.sololearn.com/Certificate/1023-17844813/jpg/>)

- Completion of ReactJS course on Simplilearn
(<https://simpli.app.link/68vIQWZc8rb>)

- Completion of TypeScript course on ZeroToMastery
(https://drive.google.com/file/d/111KkZOT4F29fE_cqiOyTgBlq0yg23B4V/view?usp=share_link)

ABOUT ME

I have a strong passion for creating responsive and visually appealing user interfaces. With my expertise in HTML, CSS, and frameworks like Tailwind and Bootstrap, I can deliver clean and efficient code for any project. I am also skilled in ReactJS, which allows me to build complex and dynamic web applications. My attention to detail and commitment to producing high-quality work make me a valuable asset to any team.

WORK EXPERIENCE

FRONT END DEVELOPER

OkadaNg | December 2022-Present

I was able to improve the platform's user interface by implementing an interactive google map that calculates the pickup and delivery location, which resulted in a 50% increase in user engagement.

FRONT END DEVELOPER

Awufbooking | September 2022-December 2022

Improved user engagement by 15% and mobile bookings by 20% through implementing mobile-responsive design and real-time booking system.

FRONT END DEVELOPER

FicHub | December 2020-July 2022

By implementing a new user interface, student engagement experienced a significant increase.

PROJECTS

1. FLIXFLOW MOVIE SEARCH APP

Flixflow is a user-friendly movie search web app designed for movie enthusiasts. With Flixflow, you can easily search for your favorite movies and get detailed information about them, including ratings, cast, and plot summaries.

- Live Preview: <https://flix-flow-app.netlify.app>

2. CAKE AND CONFECTIONARIES GALLERY WEB APP

EmpressTee is a React-based product display gallery web app that offers viewers a seamless shopping experience. The app utilizes Tailwind for its sleek design and Firebase for secure storage and authentication. With EmpressTee, viewers can easily browse and save their favorite products, creating a personalized shopping list that they can refer to later.

2. LOGISTICS COMPANY WEB APPLICATION (A CASE STUDY OF PACKIT LOGISTICS COMPANY)

PackIt is a logistics web app prototype built using React, designed to simplify the user ordering process for riders with different vehicle types. The app features a chat interface that allows users to communicate with drivers who can accept their delivery requests. Whether using a motorcycle, tricycle, car, or truck, riders can easily manage their deliveries and track their progress using PackIt.

Overall, PackIt streamlines logistics operations, ensuring efficient delivery of goods while enhancing the user experience.
