PROJECT EXPERIENCE

RaveBooking — Online Booking System For Hotels
- Designed and developed the entire frontend for an online hotel booking system using HTML, CSS, Bootstrap, JQuery and JavaScript.
- Collaborated with a backend developer to ensure smooth communication between the frontend and backend.
- Implemented a search functionality for hotel name or address, and enabled users to pay via onsite or online.

WORK EXPERIENCE

Frontend Developer, BecomeChartered (BACA), Remote, May 2023 – June 2023
- Developed and implemented the landing and summit pages for BACA, significantly enhancing the company's online presence and increasing publicity by 50%.
- Integrated backend endpoints to enable users to access and view their papers in a dynamic and user-friendly manner.
- Designed and implemented endpoints on the website, allowing users to watch video tutorials and track their progress effectively.
- Collaborated closely with the backend team to ensure seamless integration of frontend and backend functionalities.
- Implemented responsive design principles to ensure optimal user experience across various devices and screen sizes.
- Actively participated in team meetings, providing valuable insights and suggestions for improving the user interface and overall functionality of the website.

Frontend Developer, OkadaNg, Abuja - FCT, Nigeria, September 2022 – February 2023
- Built the frontend of an online motorcycle logistics platform using ReactJs, CSS, Tailwind and JavaScript, following a Figma design.

- Integrated Google Maps API to enable users to search for their destination address, resulting in a 75% increase in user engagement.
- Developed skills in React, CSS, and JavaScript while gaining experience in Agile development methodologies.

Frontend Developer (Freelance), Futuristic Ltd., Abuja - FCT, Nigeria, November 2022

- Improved the company's patronage by 34% through the development of an attractive and user-friendly website.
- Worked closely with the client to understand their requirements, and delivered the project on time.

Frontend Developer, FicHub, Kwara State, April 2021 - August 2022

- Demonstrated the ability to work effectively in a team environment and to communicate effectively.
- Successfully increased user engagement by 15% through the redesign of the website and introducing new UI.

EDUCATION

Kwara State Polytechnic, National Diploma in Computer Science (**Upper Credit**) — 2022
